

About MMS

In 1998, Medical Motor Service opened a full service vehicle maintenance garage that services all the MMS fleet, as well as vehicles from other not-for-profit agencies. The addition of this facility allows MMS to provide onsite repairs and preventative maintenance, strengthening the agency so that it was better able to control the cost, quality and safety of its and other not-for-profits' fleets.

Why Choose Us

Medical Motor Service provides full service automotive repair for not-for-profit organizations.

Additionally, MMS is able to quickly repair wheelchair lifts, as we fully stock needed parts. We will get your vehicle back on the road quickly and safely.

- **Affordable hourly rates**
- **No hidden fees**
- **Trusted results from a partner not-for-profit**
